listener and perception

Experience

2021-

HNTB Corporation

- Engineer I 2022 - Present
- General Engineering Consultant, FDOT District 5, DeLand, FL - Engineer Intern responsible for the development of technical project scopes. Specific responsibilities within the scope process include field investigation to determine deficiencies from the Florida Design Manual (FDM) criteria in the roadway and traffic operations disciplines. Additional responsibilities include concept development, right-of-way determination, crash analysis, permitting requirements analysis, survey requirement determination, cost estimation and existing conditions research.
- Intern Engineer 2021- 2022
- General Engineering Consultant, FDOT District 5, DeLand, FL – Intern Engineer responsible for the research and data collection for technical project scopes. Specific responsibilities within the scope process include field investigation support, ROW research, crash analysis, cost estimation and existing conditions and corridor history research. Dates:

University of Central Florida, Academic Services for Student Athletes

- Academic Mentor 2019-2020

- As an academic advisor, I was responsible for providing guidance and support to students in their academic pursuits. Some of my responsibilities included helping the students select appropriate courses and create a plan for graduation, providing information on academic requirements, policies, and procedures, and assisting students in their decision-making process by evaluating their strengths, weaknesses, goals, and interests. I would also collaborate with faculty, staff, and administrators to improve academic services and support systems.

Publix Supermarkets

- Customer Service 2016-2018

- Treated customers with respect, empathy, and professionalism. I was involved in understanding their needs, preferences, and expectations and providing appropriate responses to their concerns. I had to use effective communication skills as a customer service associate, as well as patience, problem-solving abilities, and the ability to remain calm and courteous under pressure.

Certifications

Engineer Intern License - Civil (2022)

Florida Real Estate License (2021)

Autodesk Certified Professional: AutoCAD (2017)

Autodesk Certified User: AutoCAD (2016), Inventor (2017)
